## Single Crystal Fibers of Yttria-Stabilized Cubic Zirconia with Ternary Oxide Additions

By F. J. Ritzert

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 38 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Single crystal fibers of yttria (Y<sub>2</sub>O<sub>3</sub>)-stabilized cubic zirconia, (ZrO<sub>2</sub>) with ternary oxide additions were grown using the laser float zone fiber processing technique. Ternary additions to the ZrO<sub>2</sub>-Y<sub>2</sub>O<sub>3</sub> binary system were studied aimed at increasing strength while maintaining the high coefficient of thermal expansion of the binary system. Statistical methods aided in identifying the most promising ternary oxide candidate (Ta<sub>2</sub>O<sub>5</sub>, Sc<sub>2</sub>O<sub>3</sub>, and HfO<sub>2</sub>) and optimum composition. The yttria, range investigated was 14 to 24 mol and the ternary oxide component ranged from 1 to 5 mol. Hafnium oxide was the most promising ternary oxide component based on 816 C tensile strength results and ease of fabrication. The optimum composition for development was 81 ZrO<sub>2</sub>-14 Y<sub>2</sub>O<sub>3</sub>-5 HfO<sub>2</sub> based upon the same elevated temperature strength tests. Preliminary results indicate process improvements could improve the fiber performance. We also investigated the effect of crystal orientation on strength. This item ships from La Vergne, TN. Paperback.

### Reviews

*It in one of the most popular ebook. It usually fails to price an excessive amount of. Its been printed in an extremely basic way in fact it is merely right after i finished reading through this book in which really altered me, change the way i believe.*

-- **Sigrid Brown**

*Absolutely one of the best pdf We have ever read. I really could comprehended every little thing using this written e book. I am easily could get a satisfaction of reading a written publication.*

-- **Dr. Odie Hamill**
